Introduction	5
Educational Objectives	5
INSTRUMENT MATERIALS	6
CARE AND HANDLING OF NEW INSTRUMENTS	8
PREOPERATIVE AND INTRAOPERATIVE CARE AND HANDLING	11
Introduction	11
Sterilization Process	12
Decontamination	12
Sterilization Methods	13
Steam Sterilization	13
Steam Sterilization by Air Dilution	14
Immediate Use Steam Sterilization	14
<i>Table 1: Procedure for Preparing Instruments</i>	15
<i>Table 2: Steam Sterilization Procedure</i>	16
Ethylene Oxide Sterilization	16
<i>Table 3: Gas Sterilization Procedure</i>	18
Gas Plasma Sterilization	18
Cold Sterilization (Germicidal Bath)	19
Liquid Chemical Sterilization	21
<i>Table 4: Cold Sterilization Procedure</i>	22
Dry Heat Sterilization	23
Quality Control for the Sterilization Process	23
Monitoring	24
Mechanical Monitoring	24
Chemical Monitoring	24
Biological Monitoring	26
Care and Maintenance	27
Documentation	27
POST OPERATIVE CARE AND HANDLING	28
Manual Cleaning	28
<i>Table 5: Procedure for Immediate Cleaning on the Sterile Field</i>	28

Decontamination	29
Sterilization Detergents	29
<i>Table 6: Decontamination Procedure</i>	30
Ultrasonic Cleaning	31
<i>Table 7: Ultrasonic Cleaning Procedure</i>	32
Lubrication	33
